Concept Area

Existing Conditions

Concept Possibilities

EXPANDED OPEN SPACE AND HABITAT AREAS

Create greenway with expanded the width of the greenway to create habitat gardens for birds and paths that connect pedestrians to the two nursery sites along the south bank.

NEIGHBORHOOD LOOP WALK

Create a 2 mile pedestrian walk loop connecting both sides of the bank. Areas beyond the path where space allows should be dedicated to planting areas providing shade for the path.

NORTH BANK GREEN INFRASTRUCTURE NEIGHBORHOOD PROJECT

Improve areas greater than 13 feet along the path to multi-use space with green infrastructure such as linear stormwater features.
