TIPS & TRICKS

- ✓ Setup: For best results, download Microsoft Teams application for free. Internet browsers should be on most recent version.
- ✓ Computer: Plug-in power cord to ensure enough charge to last meeting.
- ✓ Network: Connect to a wired network connection for best results.
- ✓ Devices: External mic & speakers OR office phone are recommended.
- ✓ Phone - *1 lists commands, *6 unmutes the phone.
- ✓ Etiquette: Mute when not speaking.

Examining the raw, unweighted data from perspectives

Community Impact

Where could a greenway network make a difference to many people?

Equity & Burden

Where are communities impacted by environmental, health and socio-economic burdens?

Circulation & Active Living

Where are the gaps in desired bicycle and pedestrian paths?

Environment

Where can we connect communities to nature?

Synergy & Opportunity

Where is there opportunity to connect to other projects under development and underutilized government land?

COMMUNITY IMPACT

Where could a greenway network make a difference to the highest number of people?

EQUITY

Where are communities impacted by environmental, health and socio-economic burdens?

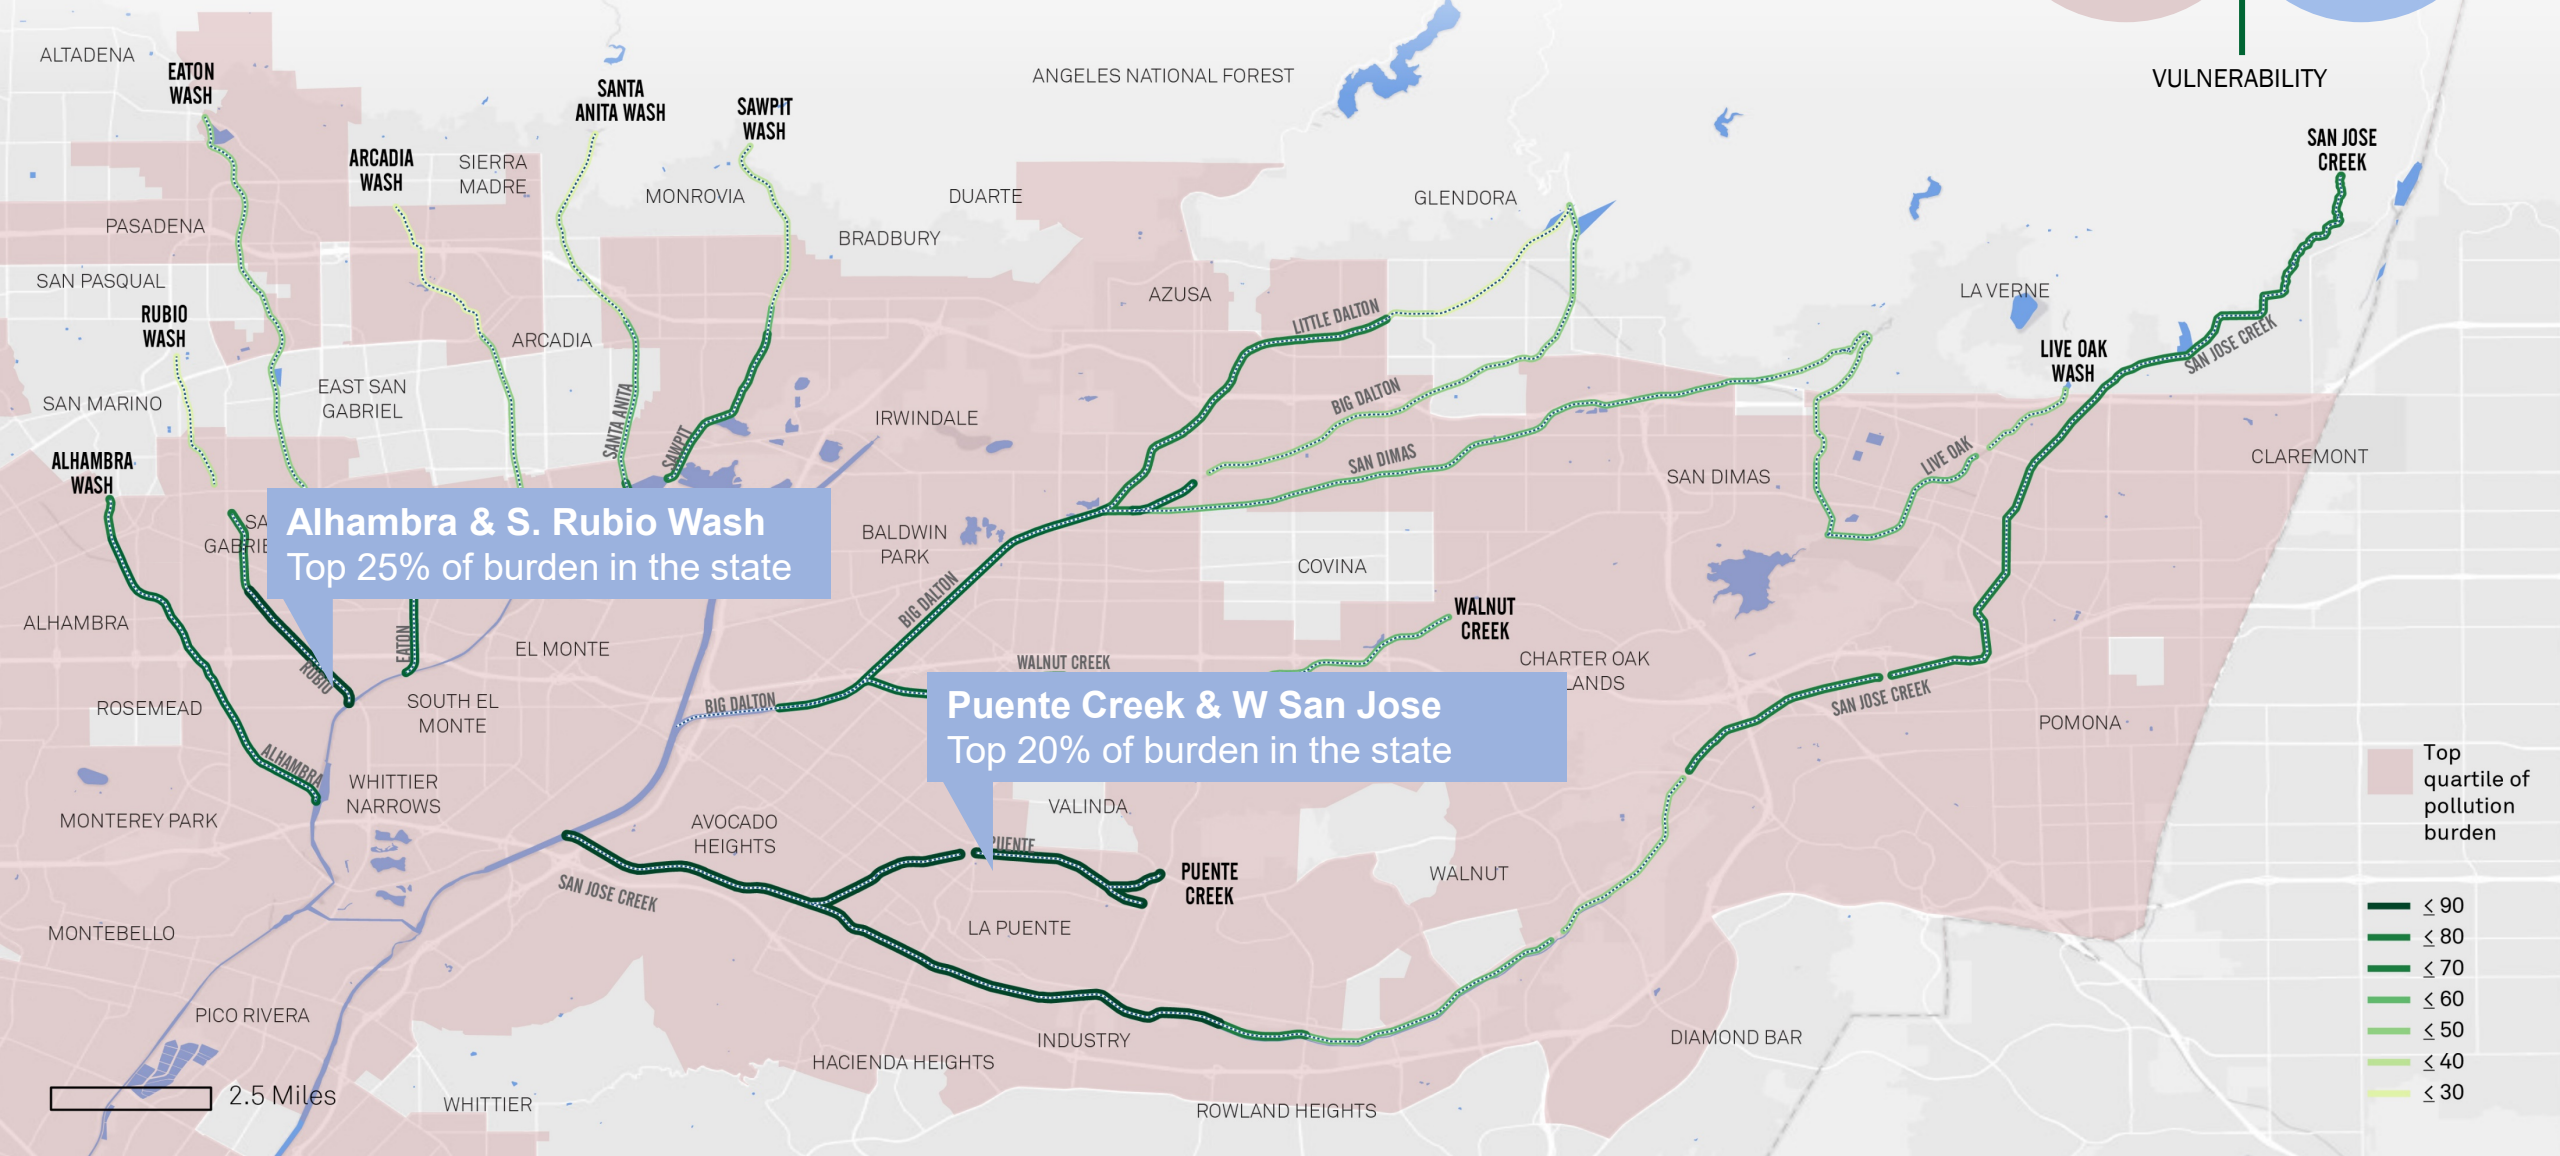

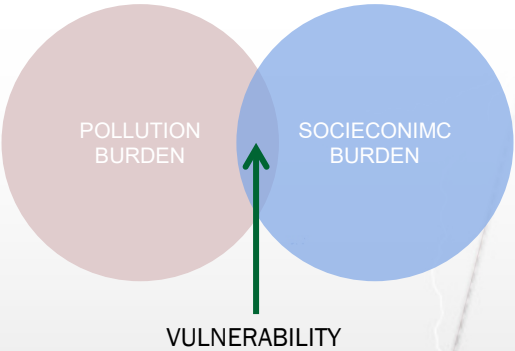

PRIORITIZE

- Areas with high exposure rates from pollution
- Areas that are polluted from multiple sources
- Populations with health burdens that are aggravated by pollution
- Population factor such as unemployment, poverty and linguistic isolation that create stress and increase vulnerability

EQUITY

Where does our greenway network pass through vulnerable communities?

CIRCULATION & ACTIVE LIVING

Where could we fill gaps in desired bicycle and pedestrian paths?

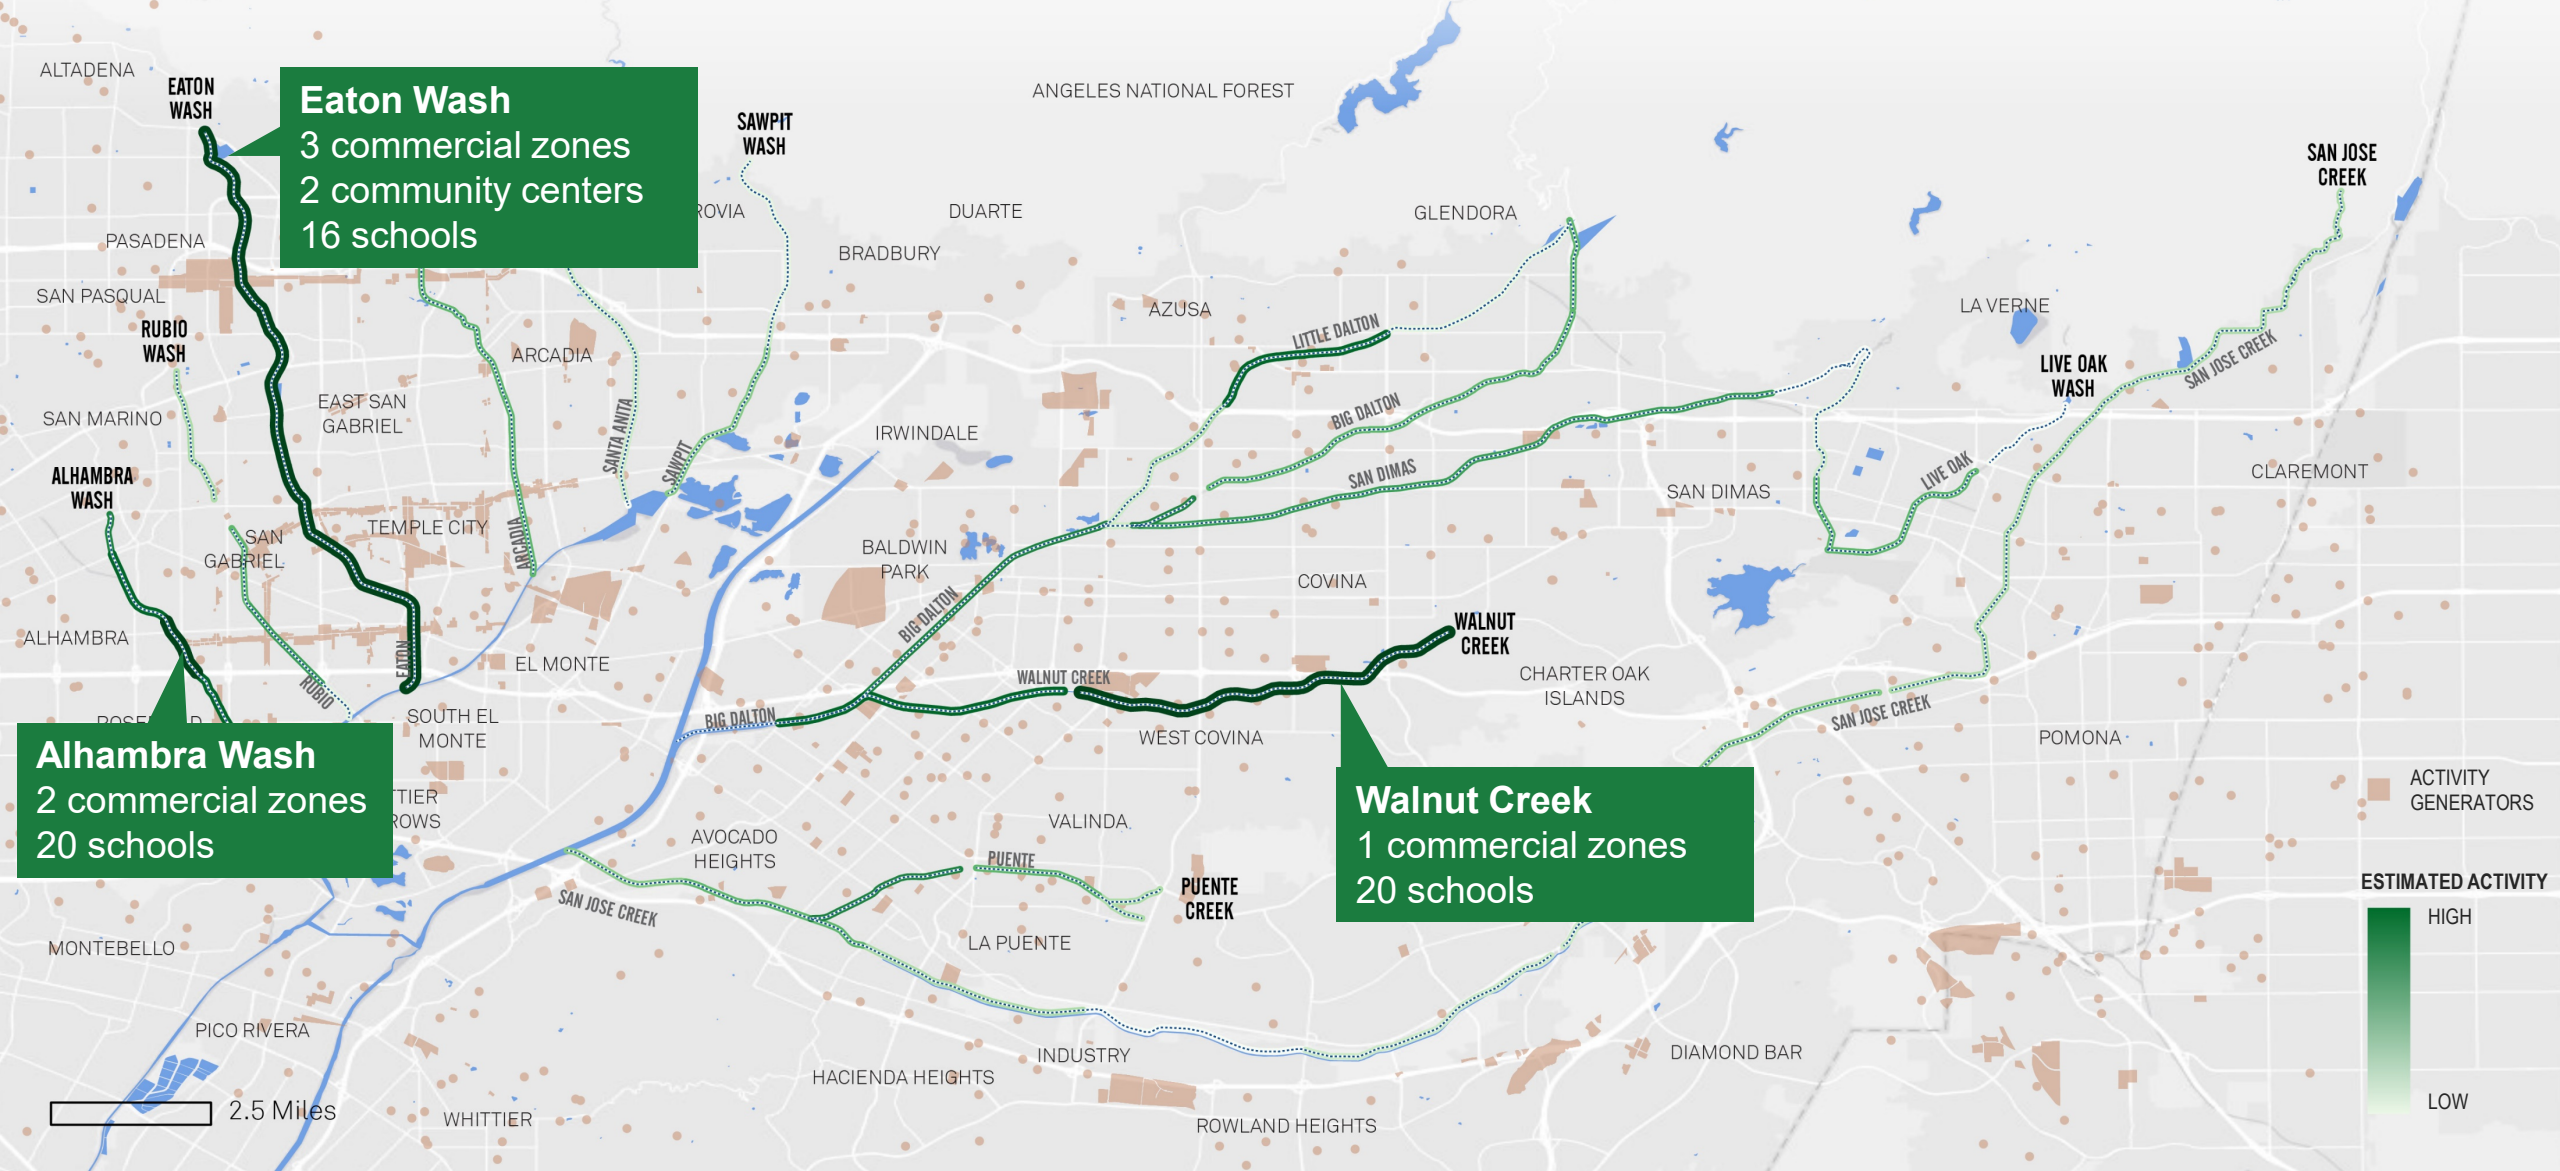

PRIORITIZE

- Where do people want to go? Where are activity generators (*Industrial/Commercial/ Retail Land Use Areas, Schools, Community Centers*) that people want to travel to?
- Where are existing bikeways and trails that the greenway could connect to?

1

Organize and lead
up to 16 community
engagement events

2

Engage community
organizations

3

Secure venues
(virtual), vendors,
notify appropriate
officials, and
facilitate workshops

Kickoff Public Workshop

- Publicly introduce SGV Greenway project
 - Present key goals, expected mobility outcomes
 - Define study area(s)
 - Showcase partners and collaboration
- Promote public engagement opportunities
 - Discuss outreach opportunities
 - Launch project website
 - Promote map-based survey
- Gain initial thoughts and feedback
 - On the project
 - On outreach communities and events

Map-based Survey

Web-based survey that allows participants to place digital pins on specific locations to cite locational concerns or potential improvements.
